We are happy to submit your insurance claims for you. If a procedure is not covered at 100% your estimated portion will be due at the time of your appointment. Benefits quoted are not a guarantee of payment. Many insurance companies provide benefits based on fee schedules and contain clauses that downgrade or exclude certain procedures. In the event that your insurance carrier does not pay what we estimate based on information received from them at your initial visit, you will be billed and held responsible for the unpaid balance. If you have any questions about these terms or how your insurance carrier processes claims, please ask our office assistant for more information, or contact your insurance carrier. If your insurance changes at any time, it is your responsibility to let our office know as soon as possible so that new benefit information can be obtained.

We do not exclude any insurance carrier at this time; however, we do reserve the right to do so in the future.

The information I have provided is true and correct to the best of my knowledge. I have read and understand the Insurance Acceptance Policy.
